Chinese Money Plant

Pilea peperomioides

Multiplies while you sleep.

Description

Turns towards the light like a very small sunflower.

It wants a bright spot with a curtain between it and the sun. A weekly drink keeps it happy.

Care facts

Light	Bright indirect
Watering	Weekly
Care level	Easy
Holiday tolerance	1 week
Pet safe	Yes
Typical height	40 cm
Pot diameter	14 cm

Care tips

Watering. Water about once a week. Let the top soil dry first. Do not leave water in the saucer.

Light. Likes a bright spot without direct sun. Turn the pot every week so it grows evenly and does not lean.

Feeding and repotting. Feed every 2 to 4 weeks in the growing season. Repot once a year. Small side shoots can be potted up as new plants.

Watch out for. Scorched spots mean too much sun. Leaves that curl or fall mean the soil stayed wet. Wipe off dust from the round leaves.

About this plant

- Pilea peperomioides is a flowering plant species.
- It belongs to the botanical family Urticaceae.
